SELECT ACRONYM KEY

N/A - Not available; N/D - Not determined; N/R - Not rated; N/E - Not established

SECTION V - HEALTH DATA**TOXICOLOGICAL TEST DATA:**

Rat, Oral LD50 > 1999 mg/kg
 Rabbit, Dermal LD50 > 2000 mg/kg
 Rat, Inhalation LC50 (4 hr) > 1.7 mg/L
 Rat, inhalation LC50 (1 hr) calculated > 6.8 mg/L
 Rabbit, Skin Irritation - slightly irritating
 Rabbit, eye Irritation - mildly irritating
 Guinea pig, Dermal Sensitizer - Non sensitizing

No evidence of carcinogenicity was observed in the mouse.

An increase in tumors was observed in the rat thyroid, but only at a very high dose.

It has been determined that the mechanism of tumor induction only occurs at high doses in rats.

Therefore, fipronil is not considered to pose a carcinogenic risk at low human exposure levels.

OSHA, NTP, or IARC Carcinogen: No.

EFFECTS OF OVEREXPOSURE:

See Product Label and Directions For Use for additional precautionary statements.

Keep out of the reach of children. Hazard to humans and domestic animals. Harmful if swallowed, inhaled or absorbed through the skin.

Causes eye irritation. Do not get in eyes, on skin, or on clothing. Do not breathe spray mist.

This pesticide is toxic to birds, fish and aquatic invertebrates.

Causes eye irritation. May cause redness, tearing. Do not get in eyes.

Harmful if absorbed through the skin. Do not get on skin or clothing. May produce symptoms similar to those from ingestion.

May cause irritation, redness, swelling.

Harmful if ingested. May cause shortness of breath, drowsiness, involuntary shaking, muscle weakness, convulsions.

Harmful if inhaled. Avoid breathing spray mist. May produce symptoms similar to those from ingestion.

May cause shortness of breath, excitement, involuntary shaking, irritability.

Medical conditions aggravated by exposure:

Inhalation of product may aggravate existing chronic respiratory problems such as asthma, emphysema or bronchitis.

FIRST AID PROCEDURES

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Note to physician: Treat symptomatically. No specific antidote.

Note: Treatment for Fipronil overdose:

Recommendations for treatment are based on anticonvulsant therapy as routinely administered to humans. Phenobarbital or diazepam may be useful in controlling convulsions induced by Fipronil.

Even when symptoms of Fipronil intoxication are rapidly reversed by treatment, the treatment must be continued for several days, gradually decreasing the dose of anticonvulsant based on the patients clinical response. This is necessary due to the slow elimination of the compound.

SECTION VI - REACTIVITY DATA**STABILITY:** Stable**CONDITIONS TO AVOID:** Direct sunlight, extreme heat, spark and open flame.**CHEMICAL INCOMPATIBILITY:** Strong bases, strong acids and strong oxidizing agents.**HAZARDOUS DECOMPOSITION PRODUCTS:** Hydrogen fluoride, NO_x, SO_x, carbon oxide, HCl.**HAZARDOUS POLYMERIZATION:** Does not occur**CONDITIONS TO AVOID:** None**CORROSIVE TO METAL:** N/A**OXIDIZER:** N/A**SECTION VII - PERSONAL PROTECTION**

PESTICIDE APPLICATORS & WORKERS must refer to the Product Label and Directions For Use attached to the product for Agricultural Use Requirements in accordance with the EPA Worker Protection Standard 40 CFR part 170.

RECOMMENDATIONS FOR MANUFACTURING, COMMERCIAL BLENDING, AND PACKAGING WORKERS:**Respiratory Protection:**

If mists are generated, wear a NIOSH approved respirator.

Eye Protection:

Chemical goggles when respirator does not provide eye protection.

Protective Clothing:

Chemically resistant suit, chemically resistant boots, and neoprene gloves as necessary to minimize skin contact.

Ventilation:

Whenever possible, engineering controls should be used to minimize the need for personal protective equipment.
